Coworking with children&elderly in the Alps – COWORCARE

The ARPAF project "COWORCARE. Coworking with children&elderly in the Alps" aims to improve the quality of working life in rural and mountain territories of the EUSALP area by **linking coworking and coworkation spaces with private caregiving institutions**, such as kindergartens and elderly-care institutions. Among the project's objectives is building a map where it is possible to identify the spaces of **coworking**, **coworkation** and **coworcure**, and private caregiving institutions within 10km.
